bounds under the closing agures of last high.

The opening was steady at a decline of 72 at 1 points, and the market sold off to a net loss of 82 is points during the early trading under scattering liquidation and local hear pressure inspired by lower cables than expected and the circulation of the March notices, which, being estimated at 5,60 bales, avere a little heavier than looked for and evidently raused some selling of the near months. It soon became evident, however, that several houses were stopping the notices as rapidly as they reached them.

New Orleans, La., February 24.—Spot cotton unchanged; middling 14 7-16c. Cotton opened at a decline of 9@12 points on poor cables, said to be due to the effect of the rate decision of yesterday on the stock market. After the call the market was quiet, but the feeling was better and offerings were absorbed without put-ing prices lower. The market was quiet throughout the entire morning, neither bulls nor bears seemed disposed to increase their commitments. Outside business was next to nothing, owing to the uncertainty over the Scott bill and also to uncertainty over the new crop. The market closed steady, unchanged to 4 points down, compared with yesterday's close. Closing bids: February, 12.98; March, 14.66; May, 14.24; July, 14.35; August, 13.72; October, 12.55; December, 12.56.

DRY GOODS MARKET.

New York, February 21.—The cotton goods markets are quiet in the primary division, prices on gray cloths being somewhat easy. The jobbers are doing a steady, moderate business with retalliers on dress goods, prints, ginghams, domerties and wash goods. Miscellaneous departments are being lightly patronized. The local wood market on foreign wools is quiet and steady. Domestic bales.

WEEKLY COTTON REVIEW

New York, February 24.—It has been an unsettled and more or less depressed market for a variety of causes, notably the Scott anti-option bill, and the fear that if passed it would result in grave injury to the cotton trade of the country, whatever the faults of the present system; the break in the New York and London stock markets, the existing big stocks, rarely equaled at this time of the year; continued large receipts; the elotis, in yarns, even at some decline in prices, and finally, the fall of copious and beneficial rains over much of the vast area of Texas.

New England mill shares have been weak, owing to the unsatisfactory
